

IN SITU ART SOCIETY presents THE DISSONANT SERIES 14

SHEPHERDS OF CATS

PASTERZE KOTÓW

This summer in July **Shepherds of Cats** are on tour. They invite you to join their flock and inhabit their sonic landscapes seasoned by climatic video experiments by **Vj Pietrushka**.

ALEKSANDER OLSZEWSKI (PL) – percussion, voice, small blowable things

ADAM WEBSTER (UK/PL) – cello, looper, voice

JAN FANFARE (PL) – clarinet D6, voice, looper, harmonica

Pasterze Kotów – **Shepherds of Cats** is a Wrocław based Anglo-Polish band exploring the the outer limits of good taste and pushing the envelope of what should be considered acceptable. Their compositions are created in real time; though sometimes time, like good taste and sense, is suspended. They are hunter gatherers – hunting and gathering sounds and re-appropriating them in sometimes inappropriate manners. They are well mannered and well-meaning. They have shame but no ego.

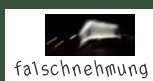

VJ PIETRUSHKA aka **MACIEK PIATEK** (PL/UK) – live video show

Vj Pietrushka is a video artist and filmmaker based in the UK. His work reflects a pure and authentic pursuit of visual experimentation. His video projections function sometimes not only as visual narratives but also as autonomous light beamers. Use of various video techniques such as found footage, collage films and VJing has helped him to create an original mood and atmosphere around his live sets. His work has been screened and exhibited both nationally and internationally in places such as Arnolfini in Bristol, Babylon Cinema in Berlin, The Vienna Künstlerhaus and The Embros Theatre in Athens.

Eintritt frei — Spende erbeten

HINWEIS: für den Eintritt auf das Gelände der Ermekeilkasernen ist ein Lichtbildausweis erforderlich
